The key to getting it in the hole: Keep your head down and spread your legs a little further. Kidding aside, I first learned about the game in 2005 from PP Jimmy Santos, who introduced me to his set of friends outside of Rotary. From then, I realized that golf's unique and undeniable power extends far beyond its lush greens and competitive spirit-- it's a sport that transcends boundaries and time, fostering connections, instilling life lessons, and providing a sanctuary for personal growth. **With that, here's 3 reasons why you should start getting your daily dose of iron.**

1. If you want to become better in life, play golf because golf is a microcosm of life itself. It teaches golfers patience, perseverance, and the art of adaptation. Playing in ever-changing environments and navigating various terrains and weather conditions are much like the challenges one encounters in their journey through life. Golf requires strategic thinking and precise execution cultivates mental acuity and problem-solving skills, life skills we need to master to succeed.

2. The golf course has the ability to forge relationships. The camaraderie that develops between players, whether they are seasoned professionals or casual enthusiasts, is a testament to the sport's capacity to bring people together. Amidst friendly banter and shared experiences on the course, lifelong friendships are forged, and business connections are established. Now that I'm older, I have grown my FB friends list by up to 5x through golf and Rotary. And with Rotary golf, I am now 100 likes per post richer.

3. Golf has the power to teach life skills and lessons that I otherwise would take for granted, namely: humility, integrity, and honesty. The sport has a way of humbling even the most accomplished individuals. A perfectly planned shot can end up in a bunker, just as meticulous life plans can unravel unexpectedly. Furthermore, players are often responsible for self-policing their actions, adhering to rules and demonstrating respect for fellow competitors.

In essence, the power of golf goes beyond the swing of a club or the pursuit of a low score. As players step onto the course, they embark on a journey of self-discovery, personal growth, and the realization that the true essence of the game lies not just in the pursuit of victory, but in the journey itself. See you at the RID3800 Golf Tournament Legs, fore!

CLUB PROFILE: ROTARY CLUB OF MARIKINA HILLTOP

CHARTERED IN JUNE 23, 1988

1

History

Friendship and service. The Rotary Club of Marikina Hilltop was chartered in 1988 by a group of professionals in the name of service and friendship.

Deeply rooted in tradition. According to charter member Rene Reside, no significant differences are notable in the way the club was run then and the way it is now. He believes the only glaring difference is in the financial support being given to The Rotary Foundation during the ten years compared to previous years. The Club has really benefitted from the addition of a number of active and honorary members who, not only are able to provide financial support to the Club, but have made substantial contributions to The Rotary Foundation, much to the credit of the Club.

GUIDING PRINCIPLES

THE ESSENCE OF BEING IN ROTARY

1 The Four-Way Test

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

2 Rotary's Core Values

3 Rotary Pledge

I do solemnly promise to help advance the object of Rotary, comply with the Constitution and By-Laws of Rotary International and of the Rotary Club of Marikina Hilltop, ever putting into practice Rotary's motto: **SERVICE ABOVE SELF**.

4 Object of Rotary

The **Object of Rotary** is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

1. The development of acquaintance as an **opportunity for service**;
2. **High ethical standards** in business and professions; the recognition of the worthiness of all useful occupations; and the **dignifying of each Rotarian's occupation** as an opportunity to serve society;
3. The application of the **ideal of service** in each Rotarian's personal, business, and community life;
4. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons **united in the ideal of service**.

ROTARY CONTENTS

7 AREAS OF FOCUS

5

Supporting Education

More than 775 million people over the age of 15 are illiterate. Our goal is to strengthen the capacity of communities to support basic education and literacy, reduce gender disparity in education, and increase adult literacy.

7

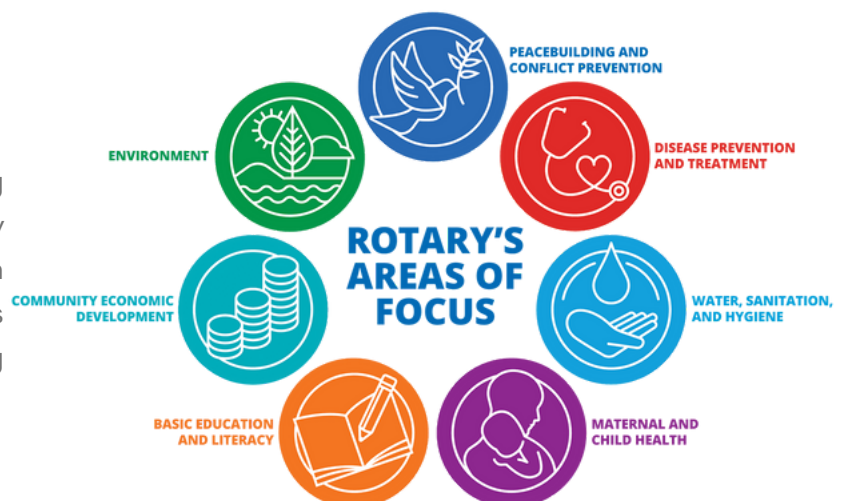

Protecting the Environment

Rotary members are tackling environmental issues the way they always do: coming up with projects, using their connections to change policy and planning for the future.

6

Growing Local Communities

We carry out service projects that enhance economic and community development and create opportunities for decent and productive work for young and old. We also strengthen local entrepreneurs and community leaders, particularly women, in impoverished communities.

MESSAGE FROM THE RI PRESIDENT

R. GORDON R. MCNALLY
President
RY 2023-24
Aug 2023

At the 2023 Rotary International Convention in Melbourne, I asked all Rotary members to become champions in our effort to illuminate mental health needs near and far. This includes helping one another feel more supported, advocating for mental health services, and building bridges with experts in the field to expand access to treatment.

It's an important task and a big ask. But it's also something that should feel familiar to every Rotary member — because everything we do is in the spirit of caring, giving, friendship, and compassion, and has been from the beginning of our organization.

We've grown into an amazing global network of 1.4 million interconnected community leaders — leaders who share a deep commitment to doing good in the world. But what makes Rotary powerful isn't just what we do for the communities we serve. We also support and empower each other, by creating a safe space for our members to bring their whole, authentic selves. We show each other comfort and care.

These connections are deeply meaningful. The U.S. surgeon general recently declared loneliness a public health epidemic. Dr. Vivek Murthy said, "We must prioritize building social connection the same way we have prioritized other critical public health issues such as tobacco, obesity, and substance use disorders." I am proud of what Rotary has done across generations to build those kinds of social connections—

— and this magazine focused on loneliness and what Rotary can do about it in its January 2023 issue.

Our worldwide community and our foundational value prioritizing Service Above Self makes Rotary a powerful global advocate for mental health. A recently published study by Ohio State University found performing acts of kindness was the only one of three mental health interventions tested that helped people feel more connected to others. Study co-author David Cregg said, "Performing acts of kindness seems to be one of the best ways to promote those connections."

This research suggests what we've known all along — that doing good helps transform not just the communities we serve, but it also transforms us. As we put a greater focus on mental health, let's not think of this effort as something new to Rotary, but rather as something we can do better and as a result have a greater impact on ourselves and the people we serve.

We are not starting this effort from scratch. The Rotary Action Group on Mental Health Initiatives has been focused on these kinds of issues for several years — and we will be looking to members of that group for leadership as we continue to build awareness.

Mental health care fits comfortably within several of our areas of focus. As of May, there are 41 global grant-supported projects with a mental health focus. Many of them have tremendous promise, and we will be highlighting them in the months ahead.

So let's work together to erase the stigma associated with emotional well-being, raise awareness of mental health needs, and improve access to preventive and interventional mental health services.

Together, we will *Create Hope in the World*.

PRESIDENT'S MESSAGE

Greetings!

Heartfelt gratitude for making our Club Assembly a resounding success. Your enthusiastic contributions and thoughtful discussions have paved the way for exciting plans in Club Admin, service projects, public image, membership, and our commitment to the Rotary Foundation. Let's continue this journey of positive impact together!

I would also like to thank all the people who supported our Club Assembly, especially PP Cito Tiu and Sps Tessie. Thank you so much for supporting the Club and sharing our passion for fellowship and service.

After the Club Assembly high, we are delighted to begin our service projects beginning with two key service projects, namely-- the formal launch of Brigada Eskwela at the Department of Education Schools Division of Ligao, Albay and the Cease, End the Cyst in San Juan. The Brigada Eskwela launch was attended by our Rotaractors and spouses wherein we donated half a hundred thousand worth of school supplies and equipment needed by teachers in preparation for the school opening on August 29. Meanwhile, for the Cease, End the Cyst Phase 1 project, almost 20 members of the Hill were in attendance and in full support of women's health. Maraming salamat sa pag-dalo!

More projects and events are coming up, and we're looking forward to seeing you in our next gatherings.

Yours in Rotary,
HCP Jens Knüttel
